Proper care and main-tenance will ensure a long life and a trouble-free operation forthis appliance. Please save these instructions and refer to them for cleaning and care tips.TABLE OF CONTENTSIntroduction. The coffee burr mill minimizes heat generationin the grinding process by using opposing burrs to crush thewhole beans to a uniform grind, preserving the unique flavourof your favourite coffee. If a finer setting is required to brew espresso or cappuccino, please grind the amount of coffee grounds recommended by your product manufacturer. If filtercollapse occurs, dampen the filter before placing in the filterFigure 2basket and adding ground coffee and water.3.Add the desired amount of coffee and gently shake tolevel the coffee. If the plug does not fit fully in the outlet, reverse the plug. Select the number of cups of coffee you will be brewing,from 1 to 12 (adjusted to 5 oz. Do not leave the appliance unattended when grinding. Press and hold the TIME button until you reach the current time. 5. 8Cleaning Instructions . Holding for 10 seconds will speed it up again.To Set the Delay Brew Time:After setting the clock, simply press the PROG button twice (TIMER appears) (Figure 1), and set the brew time by pressing and holding the TIME button. Do not modify the plug in any way.use 3. Replacement will be made with a new or remanufactured product or component.Page 2safetyIMPORTANT SAFEGUARDS3To reduce the risk of fire, electric shock and/or injury to persons, basic safetyprecautions should always be followed when using electrical appliances, includ-ing the following:1. In the unlikely event that your new burr mill does not operate satisfactorily, please review the following potential problems and try the steps recommended BEFORE you call an Authorized Sunbeam® Service Center. Opening the hopper lid during operation - check that you have enoughbeans. Timer has not been set SET TIMER 2.troubleshooting PROBLEM POSSIBLE CAUSE SOLUTION THE UNIT STOPS GRINDING 1. The AM/PM indicator will light on the left of the display.NOTE: Holding TIME for 3 seconds will speed the time up. The unit has been unplugged PLUG UNIT IN 7. Do not use the appliance for other than household use.14. For best results always select the grind setting while the unit is running or when the whole bean hopper is empty.5. The appliance's timer will shut off the burr mill when you have groundthe desired amount of beans. Select grind setting while the mill is running or when the hopper is empty. The ground coffee chamber cannot hold the full contents of the whole bean hopper. Press the START button. Turn off the coffeemaker. If you like a strong cup of espresso, makeuse the grind setting is fine.4. If a coarser setting is required to brew coffee manually, in a percolatoror using a coffee press, grind the amount of coffee grounds recommend-ed by your product manufacturer.a. The Oster®division recommends that you:1)Set the burr mill to a coarse grind setting,2)Set the Timer to 8-10 cups, this will keep the unit ON enough time togrind enough coffee for 12 cups of brewed coffee.3)Given that coarse grounds will take up more volume, always set thetimer for 2-4 cups less than the amount desired.b. Remember, you can customize the recommendations above as you dis-cover which setting best meets your personal coffee-making preference.As in the case of automatic drip coffee makers,1)Using an excessive amount of coffee grounds for brewing coffee in a percolator might cause an overflow of the percolator brew basket.2)Using finer grounds than required for brewing coffee manually in a percolator, or using a coffee press, might cause an overflow of thepercolator brew basket and/or the taste of the coffee might bestronger than desired. 5.use 5. After completely drying the whole bean hopper and top burr mill, replace the burr mill in position by aligning snaps with receptacle and rotating counterclockwise to lock it in position.troubleshooting TROUBLESHOOTING YOUR OSTER® BURR MILL Your Oster® Burr Mill has been carefully designed to give you many years of trouble-free service. 3. 4Grind Setting Chart . How do you find the single cup coffee maker that's right for you? Use only non-abrasive cleaners to remove stains. The amount of coffee brewed will always be slightly lessthan the amount of water poured in the water reservoir. of espresso coffee, 2 tsp (0.6 tsp) of fine grind are required. If you want a regular or weaker cup of coffee,adjust the grind setting to a medium to coarse setting. (Figure 2)NOTE: If using paper filters, it is important that the sides ofthe filter fit flush against the side of the filter basket. See the Suggested Coffee Measurement Chart.4 Be sure the filter is properly centered and all the way down in the filter basket.5 Fill the decanter with cold, fresh water to the desired capacity(1 cup equals 5 ounces). To check the programmed time, push the PROGRAM button until you see TIMER on the display. cups of medium grind coffee grounds, and hiddencord storage. Using finer grounds than required for brewing coffee in an automaticdrip coffee maker might cause an overflow of the paper filter and/orthe brew basket. The mill has 16 different settings - from fine to coarse - for the freshest coffee ever, a translucent, 4.5 oz. The removable ground coffee chamber is dish-washer safe, top rack.Available in matte black or white, your new Oster®Burr Mill'ssleek styling incorporates the latest in safety features, includ-ing a hopper lid safety switch to stop grinding operations ifthe lid is opened; an auto-off switch that shuts off the millwhen the ground coffee chamber is not properly seated; andeasily accessible, clearly marked START and CANCEL but-tons. The unit will work for about 1 minute if you have selected the 12 cups setting. 6For Best Results . Do not modify the plug in any way.SAVE THESE INSTRUCTIONS!PARTS DIAGRAMSTART & CANCEL BUT-TONSAUTO-OFF TIMER(CUPS) SETTINGKNOBREMOVABLEGROUND COFFEECHAMBER & LIDCORD STORAGEHOPPER LID SAFETYSWITCHWHOLE BEAN & HOP-PER LIDREMOVABLE TOP BURRMILL (WITHIN HOPPER)GRIND SETTING KNOBGROUND COFFEE CHAM-BER AUTO-OFF SWITCHUSING YOUR OSTER®BURR MILLThe Oster®burr mill features 16 grinding settings, from veryfine to coarse. Close the lid and placethe empty decanter onto the warming plate.NOTE: Make sure the decanter is fully placed on the warming plate or the water and thegrounds will overflow from the filter basket. The resulting extended cordmust be arranged so that it will not drape over a countertop or tabletopwhere it can be pulled on by children or tripped over accidentallyPage 3IntroductionIntroduction2Thank you for selecting an Oster®Burr Mill, the finest coffeemburr mill in its class on the market. The amount of whole coffee beans required is about the same as thespecified quantity of medium ground tablespoons.2. The unit will work for about 1 minute if you have selected the 12 cupssetting.3. The unit may be stopped during grinding by:a. Place the appliance on a stable, flat surface.Special Cord Set Instructions1. number of cups indicated for an automatic drip coffee maker using a medium grind, unless otherwise indicated. The market has expanded to include a lot of choices, which can make it overwhelming to pick the right one. If it still doesn't fit, contact a qualified electrician. If the ground coffee chamber is not cor-rectly seated while the mill is operating, the auto-off switch will shutoff the appliance.6. When grinding is complete, pull out the ground coffee chamber andremove the lid (Figure 1). 12How to Obtain Warranty Service. This can cause the unit motor to overheat and break a thermal fuse inside the mill, possibly damaging theunit permanently. 3Special Cord Set Instructions . The red indicator light will turn on to signalthat the coffeemaker is brewing. The user - you may change the timer setting to avoid overflowing theground coffee chamber before resuming operationb. To protect against electric shock, do not immerse cord, plugs or machine in water or in any other liquid.
